## PROJECTS

### AI Voice Assistant Project

09/2023 - 12/2023

This project focuses on developing an AI-powered voice assistant designed to enhance user interaction through natural language processing (NLP) and machine learning algorithms. The assistant can perform a variety of tasks, such as answering questions, providing reminders, managing daily schedules, and controlling smart devices. The project aims to create an efficient, user-friendly tool that simplifies everyday tasks through voice commands, making technology more accessible.
